

Grevillea 'Fire Cracker'

EXPLOSION OF FIERY FLOWERS

Origin: NSW, Australia

Species: *Grevillea hybrid*

Protection Status: PBR protected

Full sun

Height to 40cm

Spread 80cm

Mound forming

Features:

- Explosion of fiery coloured flowers for a stunning show in any garden, landscape or container
- Compact, rounded habit
- Small evergreen foliage soft to the touch
- Extensive flowering period which can last from April through to October

Suggested Uses:

- Bright colour displays during winter months
- Informal borders
- Low water gardens
- Low maintenance areas
- Small gardens
- Native gardens
- Bird attracting
- Coastal regions

Water Requirements:

Low. Once established, quite dry tolerant requiring only occasional deep watering during extended periods of heat.

Care:

Extremely hardy in most soil types which are well draining. Frost and dry tolerant once established. Use a fertiliser formulated for natives according to manufacturers directions.
